

School lesson – Activity

Now it's time to put your learning from the video lesson into practice.

Choose from one of these 3 activities:

1. **Letter writing** – Write a letter to your local MP or Mayor. You could tell them why clean air matters to you, and ask them what they are doing to help clean up the air in your area.
2. **Poster designing** – Create a bright, attention-grabbing picture and / or message about clean air.
3. **Video** – record a video of you explaining why it's important for children to breathe cleaner air, and how they can help.
